

SC

The image shows a detailed PCB layout for a battery charger. It features a complex network of black traces on a white background. There are four circular mounting holes at the corners. Two multi-pin connectors are located in the lower half of the board. The text 'SC' is enclosed in a rounded rectangle on the left side. Below it, the text 'FAST NICD/NIMH BATTERY CHARGER' and the number '11102941' are printed. The layout includes various components like resistors, capacitors, and integrated circuits, though they are not explicitly labeled.
